

The Monarch Mark 1 - A

The Hand Control recommended most often by rehabilitation driving specialists

Features:

- Large comfortable hand grip
- Operating handle is adjustable for each driver's optimal comfort
- Adjustable mounting assembly to provide maximum leg room and proper alignment
- Adjustable brake attachment rod to match each application
- Universal accelerator attachment to provide proper accelerator leverage
- Easily reinstalled to a new or different vehicle

The Monarch Mk 1A is the right choice in mechanical hand controls. It is a ***smooth operator***, offering the most popular and most recommended method of operation. This smooth operating control allows for miles and miles of relaxing trouble free driving.

The brake is applied by pushing the operating handle directly towards the brake pedal. The accelerator is activated by moving the operating handle toward the driver's seat, at a right angle to the brake movement. These movements are the least fatiguing. The brake and accelerator can be used separately or simultaneously.

Installation of the Monarch Mk 1A Hand Control requires a minimum amount of modification to the vehicle. This Hand Control can be used for either right or left hand operation.

30 Day Return Guarantee

The Monarch Hand Control may be returned within 30 days from date of purchase by the customer for a full refund of the purchase price, except for any item considered custom or special. This refund includes the price of individual item(s) only and is not applicable to service charges for installation, damage or modification of the vehicle or any freight charges.

5 year warranty

The Monarch Hand Control is guaranteed to be free of defective parts or components for five years from the date of purchase to the original owner, and for the original vehicle for which the equipment was purchased
